

BUILDING A CULTURE OF DIGITAL TRANSFORMATION

19 FEBRUARY 2020 : WESTERWOOD HOTEL, CUMBERNAULD

DATE & 19 February 2020
VENUE Doubletree Hilton Westerwood, Cumbernauld

OVERVIEW How to develop a culture of digital transformation.
 The development of digital skills enables children and young people to be creative and use digital technologies to meet a personal or social need. Increasingly they apply the core principles underpinning digital technologies to develop their own ideas. It is important that their skills are up-to-date with technological advances informed by a range of sources including the expertise of the young people themselves.

Input from Education Scotland; Google for Education; A Microsoft Innovator Educator Expert and two schools which are leading the way in digital innovation.
