

Great to meet you yesterday - and wonderful to hear about all the exciting developments across the schools. As requested, I've attached the slides for my presentation on START. The Case Study video that I showed - and a couple of others about the programme - are available to view here: [START | The High School of Glasgow](#) - I've also included this link on the final page of the presentation.

Thanks again for your interest in START - look forward to catching up soon,

Phil
